ACRYLIC SHEETS

Acrylic is known throughout the world of plastics for its dazzling glossiness and its remarkable scratch and impact resistance. This exceptional plastic comes in a variety of models designed to meet the specific needs of demanding owners and remodelers.

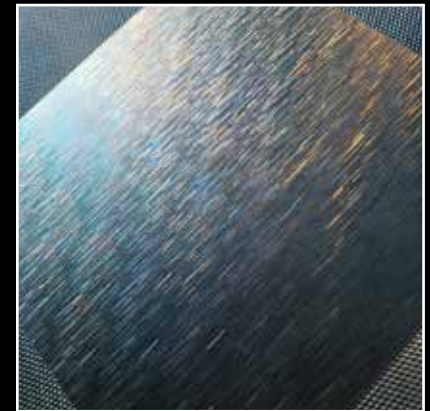

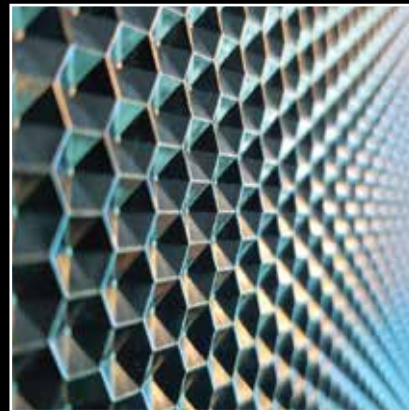

The acrylic sheets we offer are widely used in making display boards in advertising & outdoor promotion industry due to their splendid finishing and printability.

We, at Silk Road, depend on cutting edge technology; our sheets are produced in several colors, sizes, thicknesses and specifications.

DECORATIVE ACRYLIC SHEETS

Silk Road carries a line of specialty acrylic sheets used by designers and interior decorators to create innovative, attractive spaces, furniture and decorative pieces. We offer unique textures, colors, and finishes of decorative Acrylic sheets.

POLYCARBONATE

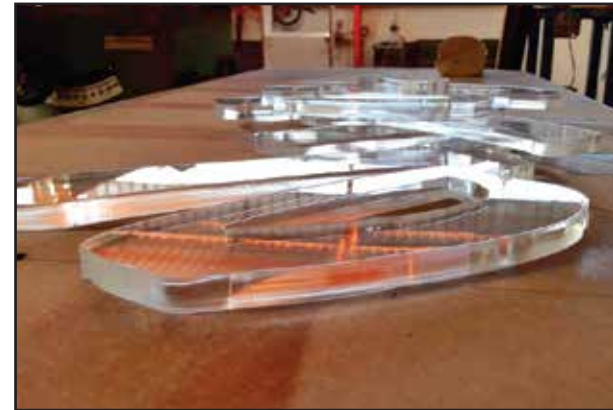

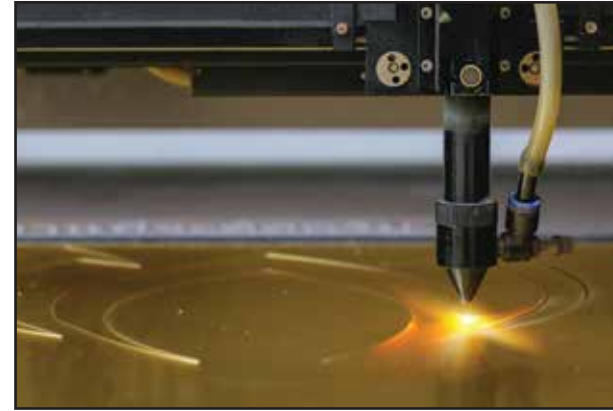

Polycarbonate (PC) is similar to acrylic, however is stronger and usable over a greater temperature range. Clear polycarbonate is highly transparent to visible light, with better light transmission than many kinds of glass.
